

Community Health and Health Promotion (COMH)

Module 2: Determinants of Health

What Shapes Health

Lesson Notes

KMVTECHUG

Version: 2026

Determinants

Income, education, housing, work, environment, services, and behaviours shape health.

Social Economic

Poverty and food insecurity raise risk and delay care-seeking.

WASH

Safe water, sanitation, and hygiene reduce many infections.

Reflect: Name one WASH gap in a community you know.

Closing

Next: behaviour, gender, equity, vulnerability.
