

Community Health and Health Promotion (COMH)

Module 2: Determinants of Health

Behaviour, Equity and Vulnerability

Lesson Notes

KMVTECHUG

Version: 2026

Behaviour

Lifestyle risks sit inside price, marketing, norms, and stress - not only willpower.

Gender and Equity

Gender roles affect care-seeking and decisions. Equity means fair opportunity based on need.

Vulnerability

Children, older people, pregnant women, people with disability, and very poor households face higher barriers.

Reflect: *Who is most likely to be left out of outreach in your area?*

Closing

Module 3: health promotion principles.
