

Community Health and Health Promotion (COMH)

Module 3: Health Promotion Principles

Behaviour Change and Environments

Lesson Notes

KMVTECHUG

Version: 2026

Behaviour Change

People need benefit, confidence, fewer barriers, reminders, and support. Information alone is rarely enough.

Enabling Environments

Handwashing needs soap and water, not only a lecture.

Community Structures

Work with churches, mosques, savings groups, and youth clubs.

Reflect: *What local group could partner on a hygiene activity?*

Closing

Module 4: assessment and participation.
