

First Aid and Basic Emergency Care (FAEC)

Module 2: Primary Assessment

Primary Survey

Lesson Notes

KMVTECHUG

Version: 2026

Overview

Danger, Response, Airway, Breathing, Circulation.

Response and Airway

Speak and gentle tap. Open airway carefully. Minimise neck movement if spine risk.

Breathing and Circulation

Look, listen, feel. Control severe bleeding with pressure.

Reflect: *Why check airway before a small arm wound?*

Closing

Next: recovery position and handover.
