

First Aid and Basic Emergency Care (FAEC)

Module 2: Primary Assessment

Recovery Position and Handover

Lesson Notes

KMVTECHUG

Version: 2026

Recovery Position

Unresponsive but breathing, no spine suspicion: side position helps airway.

When Not to Move

Move only for immediate danger.

Handover

Facts: what happened, found, done.

Reflect: *Three facts you would hand over after a collapse?*

Closing

Module 3: choking, CPR awareness, bleeding, shock.
