

First Aid and Basic Emergency Care (FAEC)

Module 3: Life-Threatening Emergencies

Bleeding and Shock

Lesson Notes

KMVTECHUG

Version: 2026

Bleeding

Firm direct pressure. Add layers. Do not pull embedded objects.

Control

Gloves when possible. Elevate only if safe.

Shock

Lie down, keep warm, nothing by mouth if severe trauma, urgent help.

Reflect: *Why not remove the first soaked cloth?*

Closing

Module 4: wounds, burns, fractures, head and spine.
