

First Aid and Basic Emergency Care (FAEC)

Module 5: Medical Emergencies

Allergy, Diabetes and Referral

Lesson Notes

KMVTECHUG

Version: 2026

Allergy

Call help. Only the casualty prescribed auto-injector if appropriate.

Diabetes

Conscious known low sugar may need fast sugar. No oral intake if unconscious.

Refer

Breathing difficulty, confusion, seizures, child lethargy need urgent care.

Reflect: *One child danger sign for urgent referral?*

Closing

Module 6: road scenes, snake bites, next steps.
