

Family Medicine and Primary Care (FAMMED)

Module 1: Foundations of Family Medicine

What is Family Medicine

Lesson Notes

KMVTECHUG

Version: 2026

Definition

First-contact, continuous, comprehensive, coordinated care for all ages in family and community context.

Uganda Primary Care

HC II-IV, private clinics, and OPDs are common first-contact points.

Gatekeeping

Guide referral wisely; do not block emergencies.

Reflect: *Where do most people in your area first seek formal care?*

Closing

Next: principles, person and family centred care.
