

Family Medicine and Primary Care (FAMMED)

Module 1: Foundations of Family Medicine

Principles and Life Course

Lesson Notes

KMVTECHUG

Version: 2026

Principles

Continuity, comprehensiveness, coordination, community orientation, whole-person care.

Person and Family

Start from the patient's story and goals; include family decision context.

Life Course

Newborns to older adults; skills transfer across ages.

Reflect: *How does continuity help chronic disease care?*

Closing

Module 2: the consultation.
