

Family Medicine and Primary Care (FAMMED)

Module 4: Continuity Prevention and Referral

Continuity and Prevention

Lesson Notes

KMVTECHUG

Version: 2026

Continuity

Same team over time builds trust and better chronic control.

Opportunistic Prevention

BP, vaccines, growth, family planning, lifestyle during routine visits.

Referral

Clear reason, findings, treatment given; emergencies and beyond-scope cases.

Reflect: *What belongs in a strong referral note?*

Closing

Next: registers, limited tests, red flags.
