

Family Medicine and Primary Care (FAMMED)

Module 5: Family Community and Context

Culture and Vulnerable Groups

Lesson Notes

KMVTECHUG

Version: 2026

Cultural Humility

Avoid stereotypes; learn from each patient and community.

Traditional Pathways

Ask non-judgementally; prioritise safety and danger-sign care.

Vulnerable Groups

Children, pregnant women, older people, disability, refugees, very poor.

Reflect: *How would you ask about treatments already tried at home?*

Closing

Module 6: ethics, teams, quality.
