

Health Communication and Patient Education (HCPE)

Module 1: Foundations

What and Why of Health Communication

Lesson Notes

KMVTECHUG

Version: 2026

Definition

Exchange that helps people understand, decide, and act - clinic, counselling, groups, handovers.

Outcomes

Adherence, safety, trust; poor talk drives missed doses and harm.

Uganda Settings

Queues, languages, hierarchy, limited privacy - adapt with respect.

Reflect: *When did poor communication last affect a patient you saw?*

Closing

Next: principles, nonverbal, trust.
