

Introduction to Epidemiology (INTEPI)

Module 1: What is Epidemiology

Definition, Scope and Uganda

Lesson Notes

KMVTECHUG

Version: 2026

Definition

Distribution, determinants, application to control health problems.

Person Place Time

Who, where, when - patterns guide action.

Uganda

Infectious diseases, NCDs, injuries, surveillance use at district and facility.

Reflect: Which health problem in your district needs population thinking?

Closing

Next: descriptive vs analytic, samples, ethics.
