

Infection Prevention and Control (IPC1)

Module 2: Hand Hygiene

Technique and Barriers

Lesson Notes

KMVTECHUG

Version: 2026

Technique

Cover palms, backs, between fingers, thumbs, fingertips. Let rub dry.

Visibly Dirty

Use soap and water; dry appropriately.

Barriers

Empty dispensers, distant sinks, skin irritation, rash. Report empties; use point-of-care rub.

Reflect: *What barrier is most common in your placement site?*

Closing

Module 3: PPE and standard precautions in practice.
