

Infection Prevention and Control (IPC1)

Module 3: PPE and Standard Precautions

PPE Basics

Lesson Notes

KMVTECHUG

Version: 2026

What is PPE

Gloves, masks, gowns, eye protection selected by task and risk.

Gloves

For fluids, mucous membranes, non-intact skin. Change between patients. Do not replace hand hygiene.

Face and Body Protection

Masks and eye protection for splash risk; gowns or aprons for fluid-risk procedures.

Reflect: *When would you choose a gown as well as gloves?*

Closing

Next: donning, doffing, respiratory hygiene, injections.
