

Infection Prevention and Control (IPC1)

Module 4: Sharps, Waste and Environment

Sharps and Waste

Lesson Notes

KMVTECHUG

Version: 2026

Sharps Prevention

No two-handed recapping. Dispose at point of use in puncture-proof containers.

After Injury

Wash, report immediately, follow post-exposure protocol.

Waste Categories

Segregate at source by facility colour codes. Do not mix streams.

Reflect: *What is the first action after a needle-stick?*

Closing

Next: waste handling, cleaning, linen.
