

Infection Prevention and Control (IPC1)

Module 5: Transmission-Based Precautions

Extra Precautions

Lesson Notes

KMVTECHUG

Version: 2026

Beyond Standard

Add contact, droplet, or airborne measures when indicated. Never drop standard precautions.

Contact

Gown and gloves for contact; dedicated equipment when possible.

Droplet and Airborne

Match mask and placement rules to how the pathogen spreads; follow facility guidance.

Reflect: *How do transmission-based precautions relate to standard precautions?*

Closing

Next: placement, outbreaks, communication.
