

Mental Health Interventions at a Workplace (MHWP)

Module 1: Foundations

Stigma, Ethics and Roles

Lesson Notes

KMVTECHUG

Version: 2026

Stigma

Fear of labels blocks help; leadership behaviour matters more than posters alone.

Ethics

Confidentiality, non-discrimination, no forced diagnosis disclosure.

Roles

Managers, HR, clinicians, peers - clear boundaries prevent amateur therapy.

Reflect: *Where do role boundaries fail in workplaces you know?*

Closing

Module 2: risks and presentations.
