

Mental Health Interventions at a Workplace (MHWP)

Module 3: Prevention and Work Design

Primary Prevention and Design

Lesson Notes

KMVTECHUG

Version: 2026

Primary Prevention

Reduce harmful exposures before illness; redesign beats clinic-only responses.

Job Design

Balance demands and resources; meaningful control; realistic targets with staffing.

Leadership Support

Fairness, recognition, supportive supervision; toxic leadership is a hazard.

Reflect: *What one job design change would reduce stress in your team?*

Closing

Next: boundaries, inclusion, measurement.
