

Maternal, Newborn and Child Health (MNCH)

Module 3: Labour Birth and Newborn

Skilled Birth Attendance

Lesson Notes

KMVTECHUG

Version: 2026

Skilled Attendance

Manage normal birth; recognise and respond to complications; stabilise and refer.

Monitoring

Partograph awareness and regular assessment help detect problems early. Needs supervised practice.

Emergencies

Haemorrhage, hypertension, sepsis, obstructed labour. Call for help early.

Reflect: *Why must this course not replace clinical obstetric training?*

Closing

Next: immediate newborn care.
