

# Maternal, Newborn and Child Health (MNCH)

## Module 4: Postnatal Care

### Why PNC and Checks

Lesson Notes

KMVTECHUG

Version: 2026

## Why PNC

Many deaths occur in the first days after birth. Early contacts detect problems.

## Mother

Bleeding, BP, temperature, uterus, perineum, breasts, urination, mood.

## Newborn

Breathing, colour, temperature, feeding, cord, activity, weight, vaccines.

**Reflect:** Name two maternal postnatal danger signs.

## Closing

Next: breastfeeding, family planning, mental health.
