

Maternal, Newborn and Child Health (MNCH)

Module 5: Child Health Under Five

Immunisation and Nutrition

Lesson Notes

KMVTECHUG

Version: 2026

Immunisation

Prevent deaths. Support the national schedule and respectful hesitancy counselling.

Growth

Plot charts. Counsel exclusive breastfeeding then complementary feeding. Refer malnutrition.

Illnesses

Pneumonia, diarrhoea, malaria need early recognition and correct pathways.

Reflect: *Why catch up missed vaccine doses?*

Closing

Next: integrated assessment and danger signs.
