

Maternal, Newborn and Child Health (MNCH)

Module 5: Child Health Under Five

Danger Signs and Prevention

Lesson Notes

KMVTECHUG

Version: 2026

Integrated Assessment

Look at the whole child: danger signs, symptoms, feeding, immunisation.

Danger Signs

Unable to drink, vomiting everything, convulsions, lethargy, severe breathing difficulty, severe malnutrition.

Household Prevention

Handwashing, safe water, nets, hygiene, timely care-seeking.

Reflect: Which child danger sign would make you refer today?

Closing

Module 6: community linkages.
