

Non-Communicable Diseases in Primary Care (NCDPC)

Module 1: Foundations of NCDs

Primary Care Role

Lesson Notes

KMVTECHUG

Version: 2026

Primary Care Tasks

Screening, counselling, basic treatment, refills, referral at HC II-IV level.

Prevention Levels

Primary stops disease; secondary finds early; tertiary limits complications.

Myths

Correct calmly. Avoid blaming patients for chronic illness.

Reflect: *How would you respond to 'hypertension is only stress'?*

Closing

Module 2: hypertension and heart risk.
