

Non-Communicable Diseases in Primary Care (NCDPC)

Module 3: Diabetes in Primary Care

Complications and Foot Care

Lesson Notes

KMVTECHUG

Version: 2026

Lifestyle and Medicines

Diet, activity, weight remain foundational. Do not adjust doses outside authority.

Complications

Eyes, kidneys, nerves, heart, feet. Pregnancy needs specialist pathways.

Foot Care

Daily inspection, footwear, early care of sores prevent amputations.

Reflect: *What would you teach a newly diagnosed patient about feet?*

Closing

Module 4: respiratory and other NCDs.
