

Non-Communicable Diseases in Primary Care (NCDPC)

Module 4: Respiratory and Other NCDs

Asthma and COPD

Lesson Notes

KMVTECHUG

Version: 2026

Asthma

Variable wheeze, cough, tightness, breathlessness. Control triggers.

COPD

Progressive disease linked to smoke. Cessation is critical.

Inhalers

Technique determines delivery. Demonstrate and check. Spacers help.

Reflect: *Why check inhaler technique every few visits?*

Closing

Next: cancer awareness, mental health, multimorbidity.
