

Non-Communicable Diseases in Primary Care (NCDPC)

Module 4: Respiratory and Other NCDs

Cancer and Multimorbidity

Lesson Notes

KMVTECHUG

Version: 2026

Cancer Role

Warning signs, prevention, timely referral - not oncology treatment in primary care.

Mental Health

Depression and anxiety reduce adherence. Acknowledge distress.

Multimorbidity

More than one NCD is common. Coordinate and prioritise with the patient.

Reflect: *How does depression affect diabetes control?*

Closing

Module 5: lifestyle and self-management.
