

Non-Communicable Diseases in Primary Care (NCDPC)

Module 6: Systems Screening and Continuity

Screening and Follow-Up

Lesson Notes

KMVTECHUG

Version: 2026

Opportunistic Screening

Use existing visits for BP and targeted glucose when feasible.

Registers

Track due dates and defaulters for organised chronic care.

Supply and Referral

Escalate stock-outs. Know clear referral criteria.

Reflect: *How would your facility find patients who missed refill?*

Closing

Final: teams, education, takeaways.
