

Nutrition for Health Workers (NUTHW)

Module 4: Malnutrition

Referral, Anaemia and Prevention

Lesson Notes

KMVTECHUG

Version: 2026

IMAM Pathways

Know OTP/inpatient sites; do not delay complicated SAM.

Anaemia

Multiple causes; diet complements clinical care.

Prevention

IYCF, hygiene, programme interventions.

Reflect: *Where is the nearest stabilisation care for your facility?*

Closing

Module 5: NCDs and therapeutic diet.
