

Reproductive and Urinary Disorders (REPURO)

Module 1: Foundations

Scope and Context

Lesson Notes

KMVTECHUG

Version: 2026

Scope

Primary care recognition of urinary and reproductive problems for women and men. Maternity detail is in MNCH.

Uganda

UTI, STI syndromes, menstrual disorders, and prostate symptoms are common. Stigma delays care.

Anatomy

Basic path of urine and main reproductive organs relevant to symptoms.

Reflect: *Why does stigma increase complications?*

Closing

Next: respectful history, privacy, referral.
