Module 2: Urinary Tract Conditions

LUTS and UTI

Lesson Notes

KMVTECHUG

Version: 2026

LUTS

Dysuria, frequency, urgency, nocturia, weak stream - clarify fever and flank pain.

UTI

Common in women; treat by national guidelines; complete courses when prescribed.

Complicated Flags

Pregnancy, male sex, obstruction, catheters, diabetes, high fever with flank pain.

Reflect: *When is a UTI more than simple cystitis?*

Closing

Next: haematuria, stones, kidneys.
