

Reproductive and Urinary Disorders (REPURO)

Module 4: Female Reproductive Health

Contraception, Subfertility and Menopause

Lesson Notes

KMVTECHUG

Version: 2026

Contraception

Informed choice; effectiveness; side effects; national FP guidance.

Subfertility

Duration, cycles, partner factors; timely referral.

Menopause

Expected symptoms; investigate atypical bleeding.

Reflect: *What does non-coercive contraception counselling mean in practice?*

Closing

Module 5: STIs and prevention.
