

Reproductive and Urinary Disorders (REPURO)

Module 5: STIs and Prevention

Principles and Syndromes

Lesson Notes

KMVTECHUG

Version: 2026

Principles

Confidential care, correct treatment, partners, HIV prevention.

Syndromes

Discharge, ulcers, lower abdominal pain - national algorithms.

Treatment

Guidelines only; offer HIV testing in STI care.

Reflect: *Why treat partners as well as the index patient?*

Closing

Next: partners, HIV links, prevention tools.
