

Reproductive and Urinary Disorders (REPURO)

Module 6: Primary Care Practice

Integration, Youth and GBV

Lesson Notes

KMVTECHUG

Version: 2026

Integration

Combine FP, STI, HIV, urinary care when workflows allow.

Adolescents

Non-judgemental; clear confidentiality; safe adult support when appropriate.

GBV

Know survivor pathways; prioritise safety and consent.

Reflect: *What is one way to make services more youth-friendly?*

Closing

Final: documentation, teams, takeaways.
