

Introduction to Web Development (WEBDEV1)

Module 1: Web Foundations

What is the Web

Lesson Notes

KMVTECHUG

Version: 2026

Web

Linked documents and apps delivered through browsers.

Clients servers browsers

Request, store/send, render.

URLs and HTTPS

Names resources; encryption protects forms on public networks.

Reflect: *Why does HTTPS matter on campus Wi-Fi?*

Closing

Next: front end, tools, careers.
