

Introduction to Web Development (WEBDEV1)

Module 5: JavaScript Basics

Events and the DOM

Lesson Notes

KMVTECHUG

Version: 2026

Role of JS

Behaviour on top of HTML/CSS.

Building blocks

Variables, functions, events.

DOM

querySelector, textContent, classList; safe updates.

Reflect: *What is risky about innerHTML with user text?*

Closing

Next: validation and UI state.
