

Introduction to Cybersecurity (CYBERSEC)

Module 3: Passwords and Accounts

Account Hygiene and Shared Devices

Lesson Notes

KMVTECHUG

Version: 2026

Account Hygiene

Review active sessions, remove unknown devices, update recovery contacts, and delete unused accounts when practical.

Shared Devices on Campus

On lab or cafe computers: log out fully, never save passwords, watch for shoulder surfing.

Recovery and Backup Codes

Store backup codes offline safely. Recovery options prevent permanent lockout if you lose your phone.

Reflect: Check one important account for unknown sessions today.

Closing

Module 4 covers safe browsing, email, apps, and public Wi-Fi.
