

Introduction to Cybersecurity (CYBERSEC)

Module 4: Safe Browsing and Email

Email, Apps and Public Wi-Fi

Lesson Notes

KMVTECHUG

Version: 2026

Email Safety

Check sender addresses, inspect links, and confirm unusual payment requests through a second channel.

Mobile App Permissions

Grant only permissions an app truly needs.

Public Wi-Fi Risks

Avoid sensitive logins on open cafe Wi-Fi when possible.

Reflect: Name one app that may have more permissions than it needs.

Closing

Module 5 covers privacy, backups, and lost-phone response.
