

Introduction to Cybersecurity (CYBERSEC)

Module 5: Data Privacy and Backups

Lost Phones and Privacy Settings

Lesson Notes

KMVTECHUG

Version: 2026

Lost Phone Scenarios

Use screen locks, find-my-device features where available, remote logout, and SIM reporting.

Privacy Settings Basics

Review who can see posts and personal info. Prefer least public settings for sensitive content.

Campus and Work Data

Do not mix sensitive organisational data onto personal unsecured devices without policy.

Reflect: *What is your plan if your phone is lost today?*

Closing

Module 6 covers incident response, habits, and careers.
